

Presentational workshop with a virtual view into countries abroad

Journey to Industry 4.0

Tuesday 12. 12. 2017

Regional scientific library in Liberec, small listening hall – 4th floor

9:00 – 13:00

Programme:

- 9:00 – 11:00 Presentations of speakers from areas of business, research and institutional support (DEX Innovation Centre, Merz, Technical University in Liberec, Czech Invest / Czech-moravian guarantee and development bank and possibly others)
- 11:00 – 12:00 Workshop focused on identification of specific problems with implementation of Industry 4.0 in participating companies and discussion with key players of regional innovative ecosystem.
- 12:00 – 13:00 Virtual view into countries of international project partners and their stories about companies from their regions which have already implemented Industry 4.0 into their production. Also what obstacles companies had to overcome and what motivated them to upgrade their production.

Due to the workshop format of this event, the capacity is limited to 25 participants. During the event modest catering will be provided.

To enroll and book a place, please send an email with your full name and name of your organization to pavel.doubek@dex-ic.com. Your reservations will then be confirmed in case we still have capacity.

This event is part of project V4&I4. For more information about this project visit http://dex-ic.com/v4i4_en.

Project Partners:

DEX Innovation Centre (Czech Republic), INNOSKART Business Development Nonprofit Ltd. (Hungary), Wyższa Szkoła Biznesu W Dąbrowie Górniczej (Poland), Aj Ty v IT (Slovakia).

This project is cofunded from the programme of International Visegrad Fund.
